

Patchworks Quilting

We'll be winding a bobbin for you!

Bowl Cozy

2–10" squares of fabric
2–10" squares of batting*
Temporary marking tool

*** If you plan to microwave your bowl, only use 100% cotton fabric, batting, and thread. Anything polyester or metallic will set on fire or melt!**

1. Layer each square of fabric on top of a square of batting. Pin around the squares. Quilt an "X" through each fabric/batting square.
2. Fold one fabric/batting square in half with batting side out. Use a marking tool to mark a dot one inch from the fold and two inches from the top. Draw a line between them. Repeat on the bottom corner of the folded square. Stitch along both drawn lines. Trim seam allowance to 1/8" to reduce bulk.
3. Fold the fabric/batting square in half in the opposite direction and repeat Step 2 above.
4. Open the square. It should sit up like a bowl.
5. Repeat Step 2 with second fabric/batting square to make a second bowl shape.
7. Turn one bowl shape right side out.
8. Layer both bowl shapes with right sides together, making sure to align corners and side seam lines.
9. Sew around the edges of the layered bowl shapes with a 1/4" seam allowance. Leave a 3" opening along one side for turning. Turn the bowl right side out through the opening. Push out corners.
10. Topstitch around the edge of the bowl, turning the opening in for a 1/4" seam when you get to it to close.

This bowl cozy perfectly fits a 6" diameter bowl with a little room to spare.

You can make this bowl in different sizes by simply changing the size fabric and batting squares you start with, as well as the dart measurements.

- 12" squares; put darts 1" across and 2.5" down (8" bowls)
- 15" squares; put darts 1" across and 3" down (12" bowls)
